Kediri, East Java

Software developer with experience across 4 internship and training roles, building full-stack web applications with Vue.js/Nuxt, .NET/C#, Laravel, FastAPI, and PostgreSQL. At a state-owned enterprise, built an internal system used by 50+ employees and a chatbot that automated about 70% of internal inquiries. BNSP-certified Junior Web Developer and Associate Degree graduate (GPA 3.75/4.00), now pursuing an online D4 in Informatics Engineering at PENS.

Work Experience

PT. Kencana Maju Bersama - Surabaya — Sep 2026 - Present

Full Stack Developer

- Rebuilt the company website from a WordPress CMS into a custom-coded platform with Nuxt 3, Vue 3, and Tailwind CSS, including a partial redesign and new features.
- Designed and built an internal admin system with Vue 3 (TypeScript), Tailwind CSS, PrimeVue, Pinia, and a Laravel REST API (PostgreSQL), with granular RBAC across 5 roles.
- Developed an in-house SEO & Readability Analyzer based on Indonesian-language rules, with an AI suggestion generator and Google SERP preview, powered by a FastAPI (Python) engine with 16 analysis modules.
- Built an Applicant Tracking System (ATS) with candidate profiles (CV viewer, family data, health screening) and automated interview email sending.
- Integrated a Lead CRM module for a light-steel estimation calculator, with sales pipeline tracking, XLSX export, and instant WhatsApp integration.
- Implemented a Leaflet GIS map for branch locations and an in-browser image editor for the digital media library.
- Containerized the services with Docker and Docker Compose, and documented the architecture, API specifications, and database schema.

CEBES Indonesia - Surabaya — Nov 2025 - May 2026

Junior Software Developer Intern (MagangHub Batch 2)

- Developed enterprise web applications using Vue.js, .NET, C#, and PostgreSQL in real-world project environments.
- Implemented new features and resolved application bugs within Agile development sprints.
- Optimized PostgreSQL queries to improve data access and application performance.
- Performed functional testing and prepared technical documentation to support development and maintenance.
- Collaborated with developers and stakeholders on feature development and system enhancements.

Belajar Bekerja by Luarsekolah - Jakarta — Sep 2025 - Oct 2025

Front-End Developer (Training Program)

- Developed an IT service website using HTML, CSS, and JavaScript.
- Designed responsive UI/UX, increasing user interaction by up to 20%.
- Optimized page load time by up to 35% and ensured cross-device compatibility.

PT Industri Kereta Api (Persero) - Madiun — Aug 2024 - Dec 2024

Full Stack Developer Intern

- Developed a GPT-2-based chatbot that automated approximately 70% of internal inquiries.
- Built a responsive internal web system used by 50+ employees.
- Performed deployment and reduced post-release bugs by up to 30%.
- Collaborated across divisions to implement 5+ system feature enhancements.

Education

Politeknik Elektronika Negeri Surabaya (PENS) - Surabaya — Aug 2026 - Present

Bachelor of Applied Science in Informatics Engineering (D4)

- Currently pursuing a D4 degree in Informatics Engineering through an online extension program.

Universitas Brawijaya - Malang — Aug 2022 - Jul 2025

Associate Degree in Information Technology, 3.75/4.00

- Developed full-stack web applications using RESTful APIs.
- Designed structured and efficient SQL databases.
- Built an IoT-based monitoring system using 5 environmental sensors.

SMK Telkom Malang - Malang — Jul 2019 - Jul 2022

Senior High School, Computer and Network Engineering, 85.00/100.00

- Configured LAN/WAN networks and performed structured troubleshooting.
- Installed and maintained Windows and Linux operating systems.
- Applied subnetting and IP addressing concepts in network implementations.

Organizational Experience

UKM Badminton Jun 2024 - Jun 2025

Secretary

- Managed administrative records for 70+ active members.
- Coordinated 10+ training sessions and internal tournaments.
- Prepared routine reports to improve organizational documentation quality.
